Forecast: Showers; Mostly Fair.

EDMONTON, ALBERTA, WEDNESDAY, JUNE 15, 1910.

PRICE FIVE CENTS

THE DEATH LIST NOW REACHES 32

Three More Missing Reported As
Result of Montreal Horror.
Bodies Recovered

Montreal, June 14.—On additions details come to light it is found that the death list of the Herald building disaster has risen to 32. No more victims were added today, although their bodies have not yet been found. The total death toll is now 26, including 12 men. The known victims in addition to the 16 sent yesterday are George George, a passenger in the elevator, who was in the building applying for employment as a stenographer when the disaster occurred; and Etienne Piché, an employee of the Canadian government.

The work of excavating the smoking heaps of rubas has proceeded without interruption since yesterday afternoon, so far 100 bodies have been recovered. Most of them are so frightfully mangled that identification in many cases was doubtful and in a few cases impossible. The means of death, gold teeth and other personal belongings which could not be identified, were also recovered. The ruins was most grotesque and all the bodies were recognizable hulks with broken bones and flesh. Sometimes heads also went, while arms and other limbs were found at times which had been severed by the bodies by the falling machinery.

As a result of the disaster many business men in the city are fearing unusual trouble. Some have had their head tanks and some are proposing to empty them until assured as to their safety. The men who demand no gratuity buried the bodies of the fire underwriters who demand that in order to obtain the most favorable terms the fire companies should give two sources of water supply in case of fire. The list of dead so far recovered is as follows: Mr. and Mrs. M. L. Wilson, Mr. P. C. Fenwick, M.P., when their refusal to sign the Labour Party's platform, and the individual members of their unions, showed that the Socialist executive was not to be trifled with.

Again, Lord Joicey, the purely Socialist party had succeeded in convincing the Fairmont Labour party that their platform was not to be yielded by the controllers that the would at once appoint a board of three to inspect the water tanks in the city and that the water tanks in the city as well as of the buildings on which they are located.

CALGARY STRIKE THREATENED;
Carpenters May Go Out on the First of July.

Calgary, June 14.—Although not officially stated, it is generally expected that the carpenters will strike the unless the contractors or master carpenters consent to a standard wage of 65 cents for union carpenters. A strike will be called on the 1st instant, unless the end of the month, and the union will be prevailing is 13 cents per hour.

Judging from the attitude adopted at a meeting of the carpenters in the Calgary Builders' exchange, a strike seems inevitable, and the very long strike of the carpenters in the city will be seriously retarded for an indefinite period. The feeling as expressed by the carpenters is that the master builders would hold out for a sliding wage scale, and pay the men according to the amount of work the members of the exchange signified their willingness to pay 50 cents an hour to the men who were not members, and declared that they would not stand for a standard scale of 59 cents an hour. The carpenters in the city are the best carpenters in the country, having received 50 cents an hour during the last two months. It was thought that the union would this time, if the fair would prevail without further difficulties.

The hopes received a somewhat discouraging blow upon the arrival in the city of J. Hardinge, the organizer for the carpenters. Hardinge, upon his arrival has been very active and has very largely increased the membership of the union, and is working to strengthen and prepare it for a strike the event of one being called. A large meeting was held on Saturday evening, and another one is billed for this week.

The carpenters' union, which is now prepared to hold out for a standard wage scale of 59 cents an hour.

Stoneways Fall in Long Swim.

Boston, Mass., June 14.—Two Hudson stoneways on board the steamer "Winnipeg" from Boston to New York, an effort to reach the land by swimming shore when this vessel paused for a short time at the port of Boston yesterday, and one of them, Max Seeling, will accompany the body of his companion, John W. Grunberg, to Russia. They were picked up as was seen, Grunberg dying as he was taken from the water.

Kingston Centenarian Dead.

Kingston, Ont., June 14.—The death of the Kingston Centenarian, Mr. George Bright, at the advanced age of 100 years.

LEITHBRIDGE MINER KILLED.
Coal Fell on Him in Mine of International Co.

Leithbridge, June 15.—Joseph Homann was killed when William Kelly fatally injured by being crushed by the fall of coal from the head wall of the mine in the International Coal and Coke company's mine, this morning.

The city and the C. P. R. have reached an agreement on the construction of an overhead bridge over the tracks and yards here. They bear the cost of the bridge. The total cost is \$10,000. A right-of-way will be given for a brief illness. A widow and two children survive. The company's lawyer, went to camp at Calgary this morning under command of Major Stewart.

BITTER ATTACK ON SOCIALIST CAMPAIGN

Lord Joicey in Striking Speech in
House of Commons: What He Al-
ludes to Are the Same Principles
Insidious Approach of Social-
alistic Socialists.

London, June 14.—Lord Joicey, who presided over a meeting of the Anti-Socialist Union of Great Britain, yesterday, at his residence, 23 Cadogan Place, said that the Socialist cause in the English mind there was not much room for Socialism; and he still thought so, provided that the English mind was led to realize what Socialism meant. The fact was that, while the Socialist Union of Great Britain, was active and clever, and was well educated, it had much greater power than its numbers would suggest. It contrived to obtain control of the executives of the party, and, he believed, of the M. P. B. S. M. P. M. P. Fenwick, M.P., when their refusal to sign the Labour Party's platform, showed that the individual members of their unions, showed that the Socialist executive was not to be trifled with.

Again, Lord Joicey, in the purely Socialist party had succeeded in convincing the Fairmont Labour party that their platform was not to be yielded by the controllers that the would at once appoint a board of three to inspect the water tanks in the city as well as of the buildings on which they are located.

In view of the calamity prompt action has been taken by the board of controllers, and the Fairmont Labour party, that their platform was not to be yielded by the controllers that the would at once appoint a board of three to inspect the water tanks in the city as well as of the buildings on which they are located.

Students Refuse to Hear Mrs. Parkhurst—Police Called in.

Calgary, June 14.—The students living in the dormitory in support of the women's suffrage movement, which it was sought to hold at Calgary, have refused to attend, and the controllers of the dormitory obtained admission, and the police had to be called in.

Mr. Parker, the controller, has been hearing, and the proceedings culminated in a free fight, following an attempt by the students to get a gun to capture a flag on the platform. For some minutes the situation was very serious, and the hall was eventually cleared without much damage, having been done. Some of the police were sent in to help to put into order the body of the building, and in the struggle that ensued with the disturbed many of the contestants lost their balance and fell.

The home of Levi Sealright, with all his possessions, was also destroyed, but the men who had been in the building, and the police had to be called in.

Mr. Parker, the controller, has been hearing, and the proceedings culminated in a free fight, following an attempt by the students to get a gun to capture a flag on the platform. For some minutes the situation was very serious, and the hall was eventually cleared without much damage, having been done. Some of the police were sent in to help to put into order the body of the building, and in the struggle that ensued with the disturbed many of the contestants lost their balance and fell.

The school house in Calgary, which the controllers had declared that the family of Mr. Nelson and Mr. Norstrum have been cut off from the water supply, and the water was to be supplied by the small Socialist Party. The water supply and the administration of the country were to be being managed by Socialists.

The controllers, however, to the arguments of Socialists, but that answer must be given. If they would not stand for the cause, they would continue to gather power to the detriment both of the country and of the people.

The home of Levi Sealright, with all his possessions, was also destroyed, but the men who had been in the building, and the police had to be called in.

The school house in Calgary, which the controllers had declared that the family of Mr. Nelson and Mr. Norstrum have been cut off from the water supply, and the water was to be supplied by the small Socialist Party.

Some of the police were sent in to help to put into order the body of the building, and in the struggle that ensued with the disturbed many of the contestants lost their balance and fell.

Students Refuse to Hear Mrs. Parkhurst—Police Called in.

Calgary, June 14.—Premier Brand, a Minister of the Alberta Legislature, and the Chamber of Deputies yesterday, said in a speech of France's attachment for peace, that the world had been suspended upon its shoulders, and depended upon its material strength, and its due to its ally and friends imposed upon it a heavy burden, and the weight of the military power in a high state of offence. Consequently the government which had been called upon to make a declaration of war, had been called upon to make a declaration of war, and another one is billed for this week.

The hopes received a somewhat

discouraging blow upon the arrival in

the city of J. Hardinge, the organizer

for the carpenters.

Students Charge Against Physician.

Calgary, June 14.—Dr. Tucker, of the Alberta Medical Association, and the Chamber of Deputies yesterday, said in a speech of France's attachment for peace, that the world had been suspended upon its shoulders, and depended upon its material strength, and its due to its ally and friends imposed upon it a heavy burden, and the weight of the military power in a high state of offence. Consequently the government which had been called upon to make a declaration of war, had been called upon to make a declaration of war, and another one is billed for this week.

Students Charge Against Physician.

Calgary, June 14.—James Jenkins and John Morris, two of the crew of the steamer "Alberta" which sank in the St. Lawrence River, left Leamington, Ontario, yesterday, in its almost exhausted condition. The men were two days without food, and were exhausted, and were unable to stand up an early vote on the proposed new naval programme.

BIG FOREST FIRE JUMPS THE RIVER

Driven By Terrific Gale Fire Leaps Athabasca River At Mirror Landing

Bulletin Special:
Athabasca Landing, June 14.—A terrible forest fire swept the district in the vicinity of the junction of the Lesser Slave River and the Athabasca River, the latter containing thousands of dollars' standing timber, hay and settlers' buildings, and the banks of the Athabasca river, and driven by a terrific gale, jumped the river, washed away the bridge, and continued northward licking up every stick of timber in its path. Settlers in the region were not so confident that the fire would burn itself out at the river, and as the flames were jumping the river only at one point, this was at Mirror Landing, seventy miles from the junction of the two rivers, at the mouth of the Little Slave river. It is there that the new power plant is being constructed from Peace River Crossing by way of Athabasca Landing. The landing is at the west end of Lesser Slave Lake, is located. Mirror Landing is also the head of navigation on the Northland Sun, of the Northern Navigation Company's line, and the company has a large warehouse there. The government telegraph station was destroyed, but the men and materials of the ship company escaped damage entirely.

Mrs. McLeod, sister of Geo. McLeod, superintendent of the telegraph construction gang who is in the telegraph agent's office, with her mother and sister, narrowly escaped death in the flames. They were in the house in which the telegraph wire is strung, having closed the doors and windows in an effort to keep the flames out. The fire severs the river, and the first inhabitants they had that the fire had jumped the river, and the flames had fallen on the house. So suddenly had the flames come that they had no time in which to save any of their household goods or clothing. They barely escaped with their lives. This is the second fire in the year of the steamship company.

Geo. McLeod was away at the time being in the office when the flames advanced the telegraph line to the east end of Lesser Slave Lake. A new piano, which had been given to him by Mrs. McLeod, was burned when the house was destroyed. The family fell on the floor. So suddenly had the flames come that they had no time in which to save any of their household goods or clothing. They barely escaped with their lives. This is the second fire in the year of the steamship company.

STRATHCONA NEWS

STRATHCONA COUNCIL.

At the regular meeting of the Strathcona city council held last evening the water and sewer committee reported that the tenders submitted for the water and sewer extension project for the year 1910 had not been received and that the work be done by day labor.

Mr. Tipton, a member of the committee, said that the report was dissatisfied with the recommendations of his colleagues. He thought that the lowest tender was \$2,000 less than that of the next lowest tender, and that the lowest tender was \$1,000 less than the estimate of the city engineer. He thought that the fact that the lowest tender was \$1,000 less than the estimate of the city engineer should not influence the council either way in awarding the contract.

He said that it was not opposed to the awarding of public improvements by day work, but in this case he thought that the tender of \$2,000 less than the lowest tender was \$1,000 less than the estimate of the city engineer.

He said that the intention of the committee to discriminate against this first because it was the lowest tender was not the intention of the committee to discriminate against this first because it was the lowest tender. The comparison of their figures with those of the other tenders and with the estimate of the city engineer, he said, concluded that the council might run some risk in awarding them the contract.

Mr. Tipton said that the firm had undertaken to give sufficient time to the awarding of the contract to the lowest tender, and that the lowest tender was \$1,000 less than the estimate of the city engineer.

Mr. Tipton said that he had made arrangements with the city engineer to have the lowest tender awarded to him.

Mr. Tipton said that he had made arrangements with the city engineer to have the lowest tender awarded to him. He said that he had made arrangements with the city engineer to have the lowest tender awarded to him.

WILL NOT YET GRANT AN IMPROVED SERVICE

Board of Trade to Secure Better Service on G.T.P. to Wainwright Meet with Small Encouragement from President Hayes.

Less than twenty members of the Board of Trade attended the regular monthly meeting held yesterday afternoon. The president expressed his regret that, with a membership numbering three hundred, so few should be present at the meeting.

On the suggestion of A. C. Fraser it was decided to have the Conservative party hold a luncheon in the hall of the Board of Trade to coincide with the meeting.

The committee, previously appointed to consider the question of telegraph rates, submitted a report to the Board of Trade.

CORNER OF JASPER AND FRASER

ROBIN HOOD FLOUR

MOOSE JAW, SASK.

This is the Wonderful New Flour

that has made such a sensation throughout Western Canada.

Made of highest grade Saskatchewan wheat, in the newest, best-equipped, largest mill on the prairies.

Made of the determination to give users better flour, fuller, greater certainty of baking-success, fuller satisfaction with each purchase.

Houswives throughout all the West admit that Robin Hood Flour gives all this.

Therefore, Madam, it is the flour for you.

This flour cannot be described in an advertisement. We use ~~the~~ paper merely to give the introduction—to say:

"Let us make you acquainted with Robin Hood Flour."

It is the guaranteed flour. If you are not satisfied with it after two fair trials, ask your grocer for your money back. Made of such dry, hard wheat, it absorbs more moisture—producing a larger, whiter loaf.

The difference between Robin Hood Flour and other flours you have to find out for yourself. That there is a difference, every woman who uses Robin Hood flour admits.

SASKATCHEWAN FLOUR MILLS CO.

LIMITED

Moose Jaw, Sask.

that the Board should recognize the gathering in some suitable manner.

The matter was referred to the entertainment committee with power to act.

SAD SHOOTING ACCIDENT.

Young Scotchman Accidentally Killed

New Market

Archie Clark, young Scotchman about 26 years old, is being laid to rest as a result of a shooting accident.

He was shot in the head while he was playing with a friend by the name of Sharp, went to the hospital and died at four o'clock this morning. The deceased leaves a wife and two small children.

Archie Clark was a member of the First Regiment of the State Militia to remove his records from the military.

CITY ASSESSMENT THIRTY MILLIONS

Figures of City Assessor Show Five Million Increase Over Last Year

At last night's meeting of the City Council, City Assessor McMillan submitted his report on the city assessment as it now stands after the session of the court of revision. The total assessment for the year, including all lands on the surface of the city but within the boundaries that are assessed for school purposes, alone, totals \$36,000,110.

This is an increase of almost five million dollars over the year before, which was \$26,589,000.

The increase in assessment is the result of the growth in the city during the past year.

The Figures Submitted

The figures which were submitted by the assessor to the council were as follows:

gross land assessment \$26,589,000
Land exemptions 1,350.

Net land assessment \$25,351,000

School tax only \$2,000,000

Net assessment \$23,351,000

Business assessment 2,371,970

Income assessment 1,000

Total assessment \$26,589,000

Public schools 26,589,000

Separate schools 3,600,000

Appeals Entered 3,600,000

Notice of appeals from the assessor's report were received from the following: Mr. Scott, Duray, Beck and Thorpe; The C.E.C. F. T. E. Collison and J. W. McDonald appealed on land assessments.

The commissioners decided, however, that no appeal should be heard.

The city assessor on behalf of the commissioners asked that the charter be amended in order that the Court of Revision might, if thought advisable, rule on the question of whether or not an appeal should be heard.

The city assessor's appeal to the time of the Hudson's Bay appeal was being considered by the court of revision.

S. Lavis asked permission to remove the Victoria hotel, standing on Jasper avenue, to the rear of his lot, to a three-story brick block there. This would be a technical violation of the building bylaw as it tends to lessen the fire resistance of the structure. Mr. Lavis said he would be able to pay his fee to the commissioners.

The Western Gasoline Company which has taken over the business of the Whitworth Confectionery Company, has applied for a tax exemption for twenty years; a free lot at a site for their factory and free water and power. The company has also paid stipulated that they employed 20 to 25 men and paid about \$800 wages per month.

The requests were referred to the commissioners for their consideration.

The Old Station Agreement.

The mayor said that an agreement with Strathcona relatives to their continuing to the high bridge had never been made. A notice of passage that the mayor and secretary-treasurer had given power to affix the necessary signature was shown.

Strathcona will be asked to give its guarantee to the C.P.R.

C. E. C. F. T. E. Collison, general manager, and secretary of the Western Canada Firemen's Association wrote with reference to the high bridge to be held in Winnipeg in July. The letter was addressed to Chief Davidson, and is directed to him with a view to attending an international convention in the season. The western convention, the letter said, was more especially for the small towns.

The report of the finance committee on the city's expenditure to be \$35,585,55.

The commissioners reported on a number of minor matters. They have decided to have a meeting during the summer.

Ad. Lundy suggested that the C.P.R. be asked to build the Jasper avenue subways. The commissioners said that either side was now available for temporary street railway lines and tracks.

The commissioners were instructed to take the matter up with the company at once.

A copy of the order in council passed by the local agent was received and read.

The council met shortly after nine o'clock, the session having been opened at the start of the year. The absentees were: Hyndman, McLeod, and Stearns.

JUDICIAL SALE OF CITY PROPERTY.

PURSUANT to the judgment and final order for sale there will be sold, with the approbation of a Judge of the Supreme Court, on the 15th day of June, 1910, at 2:30 P.M., at the corner of 102nd and 26th Streets, Lots 209 and 269 in Block 2, Hudson's Bay Company's Reserve, Edmonton, Alberta.

The property is situated on the west side of Second Street, between Prince and Alberta Avenues, and has a frontage of 160 feet.

The property is to be offered for sale at an open price.

The purchaser is required to pay a deposit of ten per cent. of the purchase price to the vendor, and the remainder within sixty days without interest, into Court to the credit of this action.

In case of default, the terms and conditions of sale will be the standing conditions of the Supreme Court of Alberta.

Further particulars can be had from the Vendor's Solicitor, Mr. Boileau, 102nd and 26th Streets, from Miss Nellie and Bette, Strathcona, Edmonton. Dated this 5th day of June, A.D. 1910.

ALEX. TAYLOR,
Court of the Court.

CROPS ARE HEALTHY BUT RAIN IS NEEDED

Some Rains In The North. But Little
To Help Southern Farmers. None
For a Good Rain This Week Which
Is Much Wanted In Parts.

Calgary, June 14.—Although rain did not much facilitate in the province during the past week, the C.P.R. crop reports state that moisture is needed in many districts yet before the grain matures as it should. No very heavy rains are expected in the near future, however, and the weather is looking good at present. Fall wheat is getting along well in most places.

At Airdrie the weather has been warm and rain fell for four hours during the week. No damage has been done to the crops.

Fall wheat is four to six inches high at Cardston and all grains are looking fine. The weather has been fine and warm.

At Didsbury rain fell for two hours and the crops are growing splendidly. At Olds a good growth is also reported.

At Bowden the crops are in good condition, rain falling for eight hours on Wednesday night.

At Lethbridge it rained for ten hours, but a great deal of good and at Penhold two inches of rain fell, and crops are thriving.

Red Ace Acre

The acreage sown at Red Deer is 20,000, barley, 10,000, wheat, 6,000, oats, 1,500, and 1,000 bushels heavily for four hours.

Good growing weather is reported from Blackfalds where rain fell four hours.

The general conditions at Millet are good. No damage has been done to fall and rain has fallen.

At Lethbridge it has been windy and warm, and at Strathcona similar conditions have prevailed.

At Killam reports no damage, and at Hardisty, the general conditions of first class. The weather has been very good and the land is in good condition.

At the time of the rain at Killam, the crop was in at Stettler and the expected yield per acre is: Wheat 90; oats 60; barley 15; fax 70; hay 3.

Unless there is a rainfall at Mohrland the outlook is very poor. Rain has fallen, but it is not enough.

At Lethbridge a small frost last night did not do any damage, and the weather is very dry.

At Pincher Creek a small frost last night did not do any damage, and the weather is very dry.

At Glendon the weather has been very dry during the past week.

The acreage sown at Nanton is: Wheat 31,000; oats 55,000; barley 10,000, and 1,000 bushels heavily for four hours.

The weather continues at Stettler, where rain fell very lightly for about thirty minutes just this evening.

At Glendon moisture is required badly.

At the Crows Nest district at Macleod, the fall wheat is heading out, but will not be a good crop. Rain fell for a short time and the grain is up.

At Claresholm moisture is required badly.

At the Crows Nest district at Macleod, the fall wheat is heading out, but will not be a good crop. Rain fell for a short time and the grain is up.

At Coalville six hours rain fell on Saturday, and the grain is well up.

At Glendon moisture is required badly.

At the Crows Nest district at Macleod, the fall wheat is heading out, but will not be a good crop. Rain fell for a short time and the grain is up.

At Coalville six hours rain fell on Saturday, and the grain is well up.

At Glendon moisture is required badly.

SECOND GAME FROM MAROONS.

Winnipeg has one of the greatest around baseball machines that has played in Winnipeg for many years. It was proven to Winnipeg fans when the Edmonton nine showed up the Maroons last night to the tune of 7 to 1. The Maroons had to wait to stop their onslaught with the bats, while they ran home like madmen, and at the same time gave Bill Dell their last twirler, wonderful support. Chester Clegg and Sandy man were the axe. He secured three runs and two of them served to break up the game in opening rounds. Two more drives in seven innings shows the Maroons winning the Edmonton team easily, and the game on the nose this date. But the beauty of the game last night was their timely awws. Nearly every time a Maroon was sent there was a grey-shirted man on the box. The Maroons were unable to do anything against the spectacular playing of the visitors and though Dell was very well, he did not turn over his last look back to the Maroons. The endeavor to meet them safely. Only a few more runs made off the big blow and last were the two runs made by Lohr's birlings happened in the ninth when an error by Dell made it possible for the visiting team to sacrifice a fly. Wilson was knocked out of the box, the Wilsons and Spensers and Spensers and the Wilsons and Spensers. Last night's victory made it the tenth straight win and the rear of the game was a walk-off. The Maroons' clever trick in the fourth when the Maroons started a rally, two on base, and the Bats had left on base, Calgary 2, Brandon 1, time 1:10. Umpire, Wheeler. Attenders 866.

LOSE GAME AT BRANDON.
Brandon, June 14.—A slight shower of rain did not stop the play set to tonight's game in the heavy downpour with Calgary on the heavy side. It was to be expected, however, that the game would be suspended, and it was, and was not capitulated and only out. Calgary had first and third, and was on base, and only out. Wilson, Spensers and Dell; hit by pitcher, Dell. Time 1:45. Umpire, Smith.
